This White Paper on Norms for Good Governance in the Quran is intended to be an introduction to how government departments, public and private organizations as well as individuals can apply Islamic principles to enhance work ethics, increase productivity and service levels, prosper the local community and the nation as a whole through higher standards of living. Diagnostic studies on the specific measures needed for each unit must of course be tailored fit to encompass each unit s unique situation and circumstances. Good governance is about getting priorities right for the nation and specific communities with regards to policies for their security, welfare and economic and non-economic activities as well as...
