

Genes on the Couch: Explorations in Evolutionary Psychotherapy (Paperback)

By -

Taylor Francis Ltd, United Kingdom, 2002. Paperback. Book Condition: New. 228 x 156 mm. Language: English . Brand New Book ***** Print on Demand *****.Philosophers and therapists have long theorised about how psychological mechanisms for love, jealousy, anxiety, depression and many other human characteristics may have evolved over millions of years. In the dawn of the new insights on evolution, provided by Darwin's theories of natural selection, Freud, Jung and Klein sought to identify and understand human motives, emotions and information processing as functions deeply-rooted in our evolved history. Despite this promising start and major developments in modern evolutionary psychology, anthropology and sociobiology, the last fifty years has seen little in the way of therapies derived from an evolutionary understanding of human psychology. The contributors to this timely book illuminate how an evolution focused approach to psychopathology can offer new insights for different schools of therapy and provide a rationale for therapeutic integration. Genes on the Couch brings together respected clinicians who have integrated evolutionary insights into their case conceptualisations and therapeutic interventions. Various psychotherapy schools are represented, and each author provides illustrative examples of the interventions used. Specific topics addressed include the nature of evolved mental mechanisms; regulation/dysregulation...

Reviews

This ebook is very gripping and intriguing. I have got read through and i also am confident that i will gonna read through yet again again down the road. Its been written in an extremely straightforward way and it is merely right after i finished reading this book through which actually altered me, alter the way i really believe.

-- **Noble Hagenes**

Completely essential read publication. It is really basic but excitement in the fifty percent of the book. You will not really feel monotony at anytime of your respective time (that's what catalogues are for about in the event you ask me).
