The very best publication i at any time study. It really is basic but shocks inside the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.

Douglas Lain, United States, 2011. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.Tells the story of how foraging from neighborhood fruit trees can lead to a radical encounter. Explains psychogeography, which is a way of wandering through urban landscapes and being attracted and repulsed by the built environments you find along the way. Douglas Lain has written a book about urban foraging as a psychogeographic wander. It is a philosophy book, a memoir, and a radical self-help book for people living during an epoch when the self is under siege. This is a book that aims to derail the reader and the author. Pick Your Battle was successfully funded through Kickstarter on July 13th, 2010. Using the foraging of fruit trees and blackberry bushes as the jumping off point, this surreal effort towards an event or an act that might change the coordinates of our collective situation shows that, during a time of economic collapse, limitless war, and peak insanity just stepping outside and getting to know the plant life in your neighborhood can constitute a radical break.
