BRAIN POWER ENRICHMENT: LEVEL 3 WORKBOOK STUDENT VERSION GRADES 8-10 (PAPERBACK)

AUTHORHOUSE, United States, 2015. Paperback. Book Condition: New. 279 x 210 mm. Language: English . Brand New Book ***** Print on Demand *****.Brain Power Enrichment Programs aim to develop problem-solving abilities in students who wish to improve their skills. Additionally, the program may provide challenging, stimulating, and inspirational learning experiences through engagement with math and logic problem solving for gifted children. This book accompanies a level 3 student through a school year of problem-solving program (or it may be used independently as a problem-solving workbook). All Brain Power programs are based on a step-by-step approach, which enables students to understand problems of increasing complexity. Level 3 continues to equip students typically in grades 8 to 10 with problem-solving strategies and techniques and supports the application of these skills to algebra and geometry. The implications for improving one's problem solving skills are numerous. These include a more positive attitude toward math and science, improved thinking flexibility and creativity in all subject areas, as well as increased success on academic, gifted, university admissions, and professional program tests (many of which are designed with an emphasis on assessing higher-order thinking skills). Moreover, knowledge of a range of problem-solving strategies coupled with experience in their application have benefits that transcend the classroom and enter the realm of professional, social, and intellectual accomplishment.
